Georgian Entrepreneurial Visa

The Georgian Entrepreneurial Visa is actually considered an "employment" visa however, in this case you are working for your own company as an entrepreneur.

Our program is aimed at entrepreneurs looking to operate a business from Georgia. It is a simple, fast, and proven method of getting your residency. It takes less than a month, and once issued you have all the rights of a legal resident including employment, and access to government benefits.

There are also many tax benefits available for owners of Georgian companies including the simplified "Estonian" model tax systems, various tax exemptions based upon the nature of the business, as well as a true territorial taxation system for individuals whether residents or citizens.
